

Botanical impressions created with yarrow,
Queen Anne's lace, northern avens, cinquefoil,
wild strawberry, mallow, wild (fox) grape, lady's thumb
and assorted meadow grasses.

Our tiles and switchplates are durable as well as beautiful.
The traditional stoneware tiles are exceptional in architectural installations
and can be used outdoors year round.
All of our ware is easy care - a quick wipe with a damp sponge or cloth
and a mild household cleaner if necessary.

each tile and switchplate's picture tells a little story
about the wildflowers and grasses growing around us

☘ out of our meadows and through our hands to yours ☘

🌿 ordering and contact information 🌿

we endeavor to ship within two weeks but
depending on our inventory and the season
of the year it can be four to eight weeks

custom orders need to be placed
during the growing season

Some compliments from our customers...

about our switchplates:

*"The longer I see these switchplates, the happier I am
with them."*

*"Your switchplates were my bathroom contractor's
favorite thing!"*

"It's that finishing touch for my rooms."

about our tiles:

"These tiles are delightful!"

"Your tiles speak to my heart."

*"My backsplash went from ordinary to terrific when I
added your decorative tiles as accents."*

*"The tile picture you created for over my stove is
beautiful! Thank you for sharing your art with us."*
